

MUHAMMAD HASNAIN

MERN Stack & Next.js Developer | Backend AI Engineering | Seeking Internship / Junior Developer Role

Sargodha, Punjab, Pakistan | +92 300 0253031 | muhammadhasnain3031@gmail.com

LinkedIn: [linkedin.com/in/muhammad-hasnain-dev](https://www.linkedin.com/in/muhammad-hasnain-dev) | GitHub: github.com/muhammadhasnain3031 | Portfolio: muhammadhasnain3031-github-io.vercel.app

PROFESSIONAL SUMMARY

MERN Stack and Backend AI Engineering developer with 7+ independently deployed full-stack projects, including a multi-tenant hospital SaaS, a containerized Node.js/PostgreSQL task API with Groq AI integration, and e-commerce systems. Skilled in REST API design, JWT authentication, Docker containerization, and AI API integration (Groq, OpenAI), deployed on Vercel. Reliable and disciplined, balancing a government technical role with independent development work.

TECHNICAL SKILLS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets (Socket.io), Docker, Docker Compose

Database: MongoDB, Mongoose, MongoDB Atlas, PostgreSQL

AI & Integration: Groq AI API, OpenAI API, Cloudinary, Twilio

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Tools & DevOps: Git, GitHub, Vercel, Postman, VS Code, npm

PROJECTS

a2-tasks-api — Backend AI Task API (FlyRank AI Internship, Backend AI Engineering Track)

Node.js, Express.js, PostgreSQL, Docker, Docker Compose, Groq AI API

- Built a layered Tasks CRUD REST API with Node.js and Express.js, moving storage from in-memory to PostgreSQL, and containerized the stack with Docker and Docker Compose (healthcheck-based startup, verified persistence).
- Integrated the Groq API (Llama-3.1-8b-instant) for a task-summarization endpoint, and built an async PDF report generator with background job tracking.

MediCare Pro — Hospital Management SaaS [Live](#) | [Code](#)

Next.js, TypeScript, MongoDB, Tailwind CSS, Groq AI, WebRTC, Twilio

- Built a multi-tenant Next.js/MongoDB platform with 8 role-based dashboards (Super Admin to Patient), JWT authentication, and a Node.js/Express.js REST API backend.
- Integrated the Groq AI API for prescription support, a drug-interaction checker, and a role-aware chatbot, plus live telemedicine via WebRTC and Twilio notifications.

SmileCare — Dental Clinic Platform [Live](#) | [Code](#)

Next.js, TypeScript, Tailwind CSS

- Built a responsive Next.js/TypeScript dental clinic site covering 17 specialties, with a REST API-backed booking flow and an interactive before/after smile-transformation slider.

MERN E-Commerce Platform [Live](#) | [Code](#)

MongoDB, Express.js, React, Node.js, Redux Toolkit, JWT

- Built a full MongoDB/Express.js/React/Node.js e-commerce system with JWT authentication, bcrypt password hashing, Redux Toolkit, Cloudinary image uploads, and an admin dashboard.

EXPERIENCE

Junior Technician (Grade 9) — Health and Population Welfare Department, Government of Punjab

2021 – Present

- Serving in a government technical role requiring reliability, procedural discipline, and attention to detail.
- Balancing government service with independent Node.js/MongoDB software development, freelancing, and open-source contribution.

Freelance Full-Stack Developer — Self-Employed (Fiverr & Upwork)

Jan 2025 – Present

- Designed, built, and deployed full-stack MERN applications (MongoDB, Express.js, React, Node.js) as independent portfolio projects, covering the full lifecycle from requirements to live deployment on Vercel.
- Actively building a freelance client base on Fiverr and Upwork alongside continued portfolio development.

OPEN SOURCE CONTRIBUTION

EGC — LLM Orchestration Engine — Merged Pull Request

Jun 2026

- Added OpenRouter model routing support (7 new model mappings — DeepSeek, Qwen, Llama) to an open-source Node.js LLM orchestration engine, including capability metadata and fallback chains; refactored per code review feedback and merged after passing CodeRabbit and SonarCloud review.
- Translated the project README into Arabic and Hindi (PR #413, #419 — i18n, 500M+ speakers) and submitted a Windows 11/WSL2/MCP installation testing report (Issue #329).

EDUCATION & TRAINING

MERN Stack Development — PNY Trainings, Sargodha (2025 – 2026)

- Professional training in full-stack web development: MongoDB, Express.js, React, Node.js, REST APIs, and deployment.

Bachelor of Arts (B.A.) — University of Sargodha (2021)
